Fee and commission revenue drivers:

- Brokerage and trading: Impact of interest rates on trading portfolio reduced revenues by \$5 million
- Transaction card: Continued mid single digit year over year growth.
- Fiduciary and asset management: Strong sequential growth in Retirement Services due to fiduciary rule; year over year growth driven by asset accumulation in Cavanal Hill Funds and managed accounts.
- Mortgage banking: Typical fourth quarter seasonality; lower refinance volume due to higher rates

Key Credit Quality Metrics

- ✓ Stable credit environment in Q4
- ✓ No signs of contagion/spillover from 2014-2016 energy downturn

2017 Assumptions

- Mid-single-digit loan growth for the full year
- Stable to increasing net interest margin
- Low single digit net interest income growth
- Loan loss provision of \$20 - \$30 million for the year
- Low-single-digit revenue growth from fee-generating businesses on a trailing twelve month basis
 - Down from mid-single-digit due to mortgage headwind (exit of correspondent mortgage business and lower expected refi volume in 2017)
- Flat expenses compared to 2016
- Capital deployment through organic growth, acquisitions, dividends, and limited stock buybacks

Thank you!
